DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation in claim 1, line 6 of “wherein material to be combusted flows via the one or more inlets” renders the claim indefinite. Part (b) and (c) of claim one refer to one or more oxidant and a liquid or gaseous fuel to be combusted. It is unclear from the claim whether the material referenced in line 6 is the one or more oxidant and a liquid or gaseous fuel to be combusted. It is suggested that “material” in line 6 is replaced with one or more streams of an oxidant and a liquid or gaseous fuel.

Allowable Subject Matter

Claims 25-30 allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach with necessary specificity fumed silica satisfying the equations specified in claim 25. In order to anticipate the claims, the claimed subject matter must be disclosed in the reference with “sufficient specificity to constitute an anticipation under the statute.” What constitutes a “sufficient specificity” is fact dependent. MPEP 2131.02. In the instant case, it appears that atomizing the liquid feedstock post

combustion of the combustion fuel is a feature that distinguishes over the prior art and is necessary to form fumed silica satisfying the equations specified in claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
